

360 Rotary Air Dryer PD360

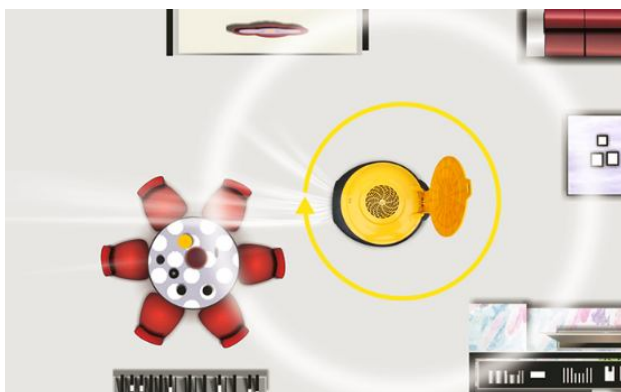

Introduction

360 Rotary Air Dryer PD360 is a high performance innovative carpet dryer to dry carpet quickly. Intelligent operation, simple and easy with wide application. It can rotate 360 degree automatically to dry every angle.

Technical Data

Model	Power (W)	Round Speed (r/min)	Measurement (mm)	Cable Length (m)	NW/GW (KG)	Speed Choice
PD360	500	1250/2280	500*420*255	6.5	10.55/12.05	2

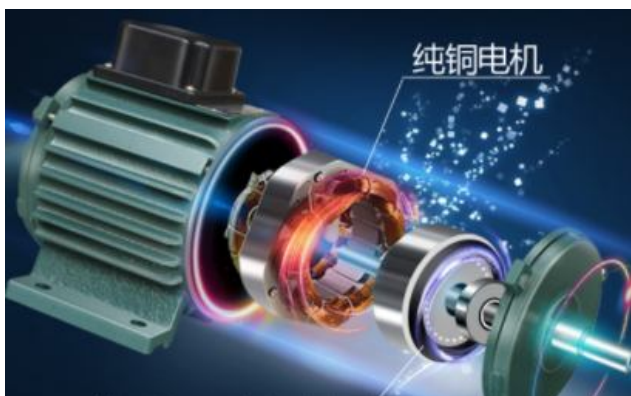

Features

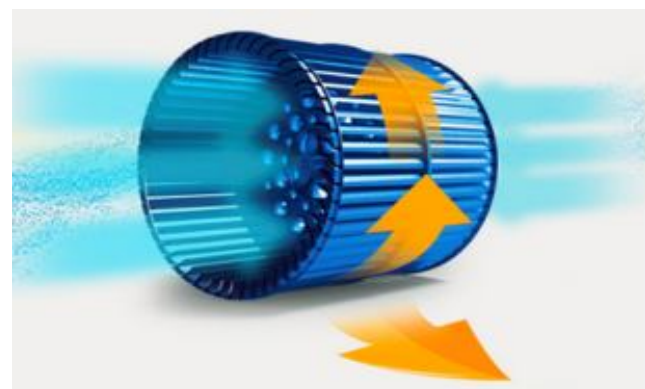

Drying area is 110 square meters, and the 360° rotary dryer is arranged with high efficiency.

Optional speed regulation, wind speed switching at will, cleaning and using different gears for different floor tiles, floors, carpets, etc.

Pure copper closed motor, moisture-proof and moisture-proof, safe and corrosion-resistant.

The pressure relief structure on two sides of the fan blade is free of wind and air leakage, keeps the flow balance of the fan blades, reduces the vibration and noise of the whole machine, and obtains the higher wind volume with the same effect.

Advantage

Invisible handle, fashion and high class

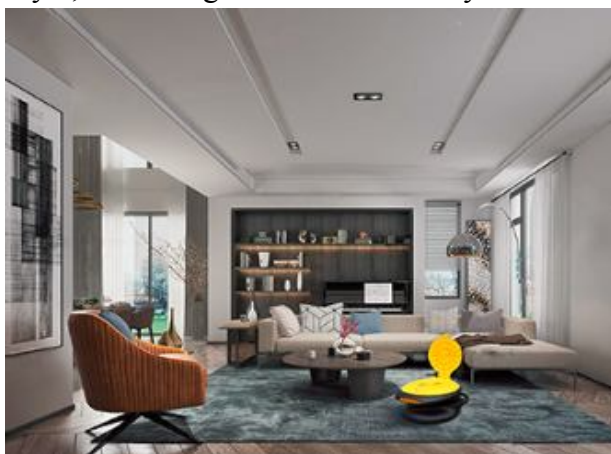

45 degree cross section outlet
Ensure rapid air drying of ground

Super mute design, More mute than traditional dryer, the average noise value is only 52db

Strong shell, Using engineering plastic ABS shell, anti-fall, rugged and durable

Easy to collect
Flat placed, side placed, save space.
