

### Super Low Noise Vacuum Cleaner PC9/16

**Features:**

Super Low Noise Vacuum Cleaner PC9/16 is a high performance stable vacuum cleaner to collect dust for carpet. It is extremely low noise during operation, and has strong dust collecting ability.

**Technical Data:**

Model	Power (W)	Suction (KPa)	Air Flow (m <sup>2</sup> /min)	Cable Length (m)	Noise Level (db)	Capacity (L)	NW/GW (KG)	Measurement (mm)	Packing Size (mm)
PC9	900	22	12.8	8	55	9	5.1/7.7	420*345*365	420*385*497
PC16	1200	26	4	8	58	16	5.6/8.2	420*345*405	420*385*497

**1. Family Use.**

It can clean solid garbage, such as dust, cigarette butts, leaves, gravel, paper chips, glass fragments, etc.

**2. For application of hotel room and factory workshop.**

It can clean workshop debris, large pieces of waste without pressure dust, hotel room large area dust removal and decontamination.

**3. For Car Use.**

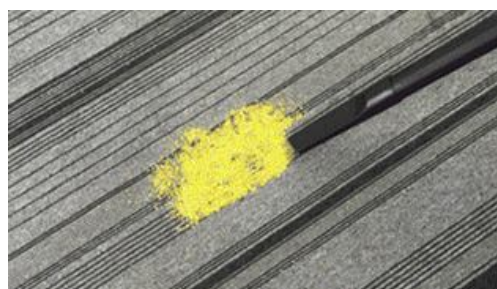

Clean car cushion, dead corner gap, or a trunk, etc., all can be solved by one machine.

4. Other Application.

Clean glass

Clean maize grains

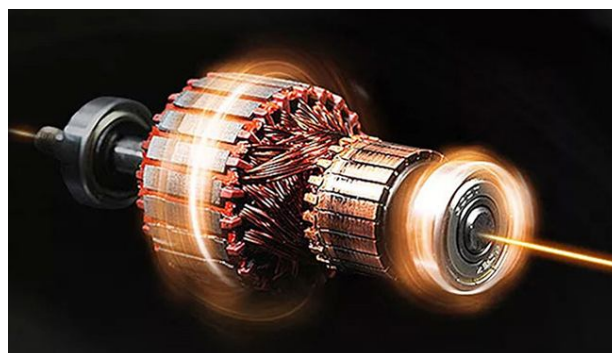

Clean wool carpet

Clean fiber carpet

5. High Tech Process and High Efficient Motor.

210Mbar vacuum degree, high efficient large caliber motor, big suction ability.

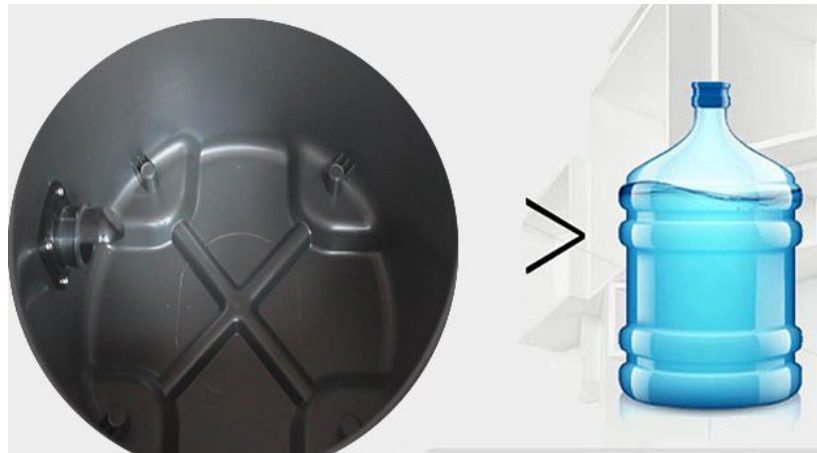

6. 35mm large caliber.

Higher suction power, using large caliber 35mm, larger air duct, smoother air flow, in the same power working environment, inhaled power is higher.

7. Large capacity.

Strong and durable. There is no need for frequent dumping, cleaning is done at once.

8. Engineering ABS material, durable and undeformed, non-rust, anti-static

9. Extended diameter, 14 m operating range, easy to cover any dead angle.

10. Five humanized design.

Super low noise design.  
The average use noise value is only 58d.

Grooves type handle.  
Security and telescopic rod, convenient to carry.

Winding power cord with collection design.  
Easy and tidy,

One-piece accessory rack.  
Avoid the trouble of missing accessories.
