

Muti-function Snow Sweeping Machine PN8160 (150cm)

Product Introduction

It adapts high performance 15HP gasoline engine started by electricity, the snow sweeping width is 150cm, greatly improve the snow sweeping efficiency. Since it is applied for many places, it gets good praise from customers. By using this product, the sweeping brush is wider, efficiency is higher, and easier use.

Muti-function Snow Sweeping Machine PN8160 can also add the functions of seat, snow pushing, snow lifter, snow shovel, because the sweeping width is as wide as 1.5m and the total cost is highest, so it is recommended to the customers with higher requirement.

Technical Data

Snow Sweeping Area	5000m ² /h
Max Working Width	150cm
Engine Type	15HP, 420cc engine
Oil Tank Volume	6L
Oil Consumption Volume	0.6L/H
Gear	3 forward gears, 3 backward gears
Transmission Mode	Gear Transmission
Start Up Mode	Electricity and Manual Start
Fuel Type	Gasoline without Lead
Brush Diameter	50cm
Tyre Size	5.0-10
