

Powerless Manual Floor Sweeper Filtration Design PM700

Features:

Filtration Design Powerless Manual Floor Sweeper PM700 has added mechanical dust removal and exhaust device on the basis of the natural dust removal and air exhaust of powerless floor sweeper, it can filtrate and remove the dust out during the operation. In addition, the secondary pollution problem of dust overflow is effectively relieved.

Filtration Design

Effectively solve the problem of the dust overflow in dust-collecting box, can be cleaned and replaced, more convenient

Metal Structure

Structure is made of metal, more stronger

Adjustable Main Brush

Main brush height off ground can be adjusted to adapt to different ground and different garbage.

Front and Back Dustbin

It can increase the capacity of dustbin and make it easier to clean up garbage.

Adjustable Front Brush

Can adjust front brush height according to different garbage

Technical Data:

Sweep Width	700mm
Main Brush Width	480mm
Max Work Efficiency	2800m ² /h
Dustbin Volume	45L
