High Temperature High Pressure Washing Car PT13

Product Introduction

The High Temperature High Pressure Washing Car PT13 is a multifunctional cleaning product specially designed for municipal sanitation, road cleaning and outdoor cleaning. The high-temperature and high-pressure water flow output of the product can be used for high-efficiency cleaning, heavy-stain, heavy oil-contaminated sanitation station bus, engineering vehicle, ect.

Product Characteristics

The utility model adopts high quality burners and has the functions of intelligent temperature regulation and intelligent protection. Jinpeng chassis, original half-top, super heavy load, safe and reliable. High efficiency and sufficient combustion efficiency of large air volume blower, large capacity tank to get continuous hot water work for 3 hours. The front fork adopts hydraulic shock absorption, comfortable driving and high seismic strength, excellent performance, heavy load, safety and reliability.

Stainless steel outer cover

Rolling plastic water tank

Product Parameters

Product Model	PT13	Max Speed	35km/h
Pump Max Flow	15L/min	Water Tank Capacity	750L
Pump max pressure	25MPa	Battery	60V80Ah-5PCS
Oil Tank Capacity	Gasoline 30L/Diesel 20L	Water availability time	50-70min
High Pressure Hose	15m self-rolling hose	Start-up mode	Manual/Power
Hot Water Max Temp.	100°C	External Dimension	340*120*185cm
