Ride On Snow Remover (Optional snow shovel, snow lifter)

Product Introduction

This Ride On Snow Remover has special structure of beach off-road vehicle structure by special design, one machine has multiple use, and it is single driving, the volume is small and flexible, the speed is fast, the operation is simple, the shape is novel and unique. It can easily complete the workload of 20 manual or 6 hand held snow sweepers.

The car has a variety of functions: by simply and quickly replacing the snow removal device in front of the car, you can sweep snow, push snow, lift snow, sweep water, clean up fallen leaves. The equipment design is advanced and reasonable, low noise, not restricted by the site, not afraid of deceleration belt, fast rotation speed.

It is suitable for troops, streets, squares, enterprises, properties, schools, parking lots, parks, non-motorized lanes and other places to remove snow.

Technical Data: Beach Vehicle Configuration

Vehicle Color	Bright Yellow
Start Up Mode	Electricity
Vehicle Engine	Zongshen Engine, single cylinder and four-stroke
Displacement	250CC , Water cool engine
2500pound	Luxury electric capstan
12-inch aluminum wheel	Vacuum tyre
Gear	Clutch gear, four forward gears, one empty gear, one backward gear
Front brake	Rear disc brake
Oil Tank Volume	10L
Oil Consumption Volume	4L/100KM, max 30KM
Carrying Capacity	200KG

Passengers	2 persons
Snow Sweeping Speed	2~20KM/H
Sweeping Width	130cm
Snow Sweep Efficiency	3600-24000m ² /hour
Standard Configuration	Foldable organic windshield, super large UTV rearview mirror, super strength corrosion resistant roof
Optional Configuration	150CM Professional snow-pushing shovel, 130CM Snow lifting head

Snow Sweeper Brush System Configuration:

Rear Engine	Four stroke Zongshen 13HP engine (optional other engines)
Transmission Mode	Belt tension shaft transmission
Snow Sweeper Brush Size	Width 1300mm, Diameter 50mm
Max Rotation Speed	400r/mim
Steering Angle	25 degree , can be up and down
