### Medium Walk Behind Snow Sweeper PN110 (110cm) (Largest Sales Type)

#### Product Introduction:

This Walk Behind Snow Sweeper is a hand push machine, widely used in snowy areas. As an important equipment for snow removal in winter, it has great advantages of high efficiency, economy and environmental protection. Simple operation, high working efficiency, one snow sweeper is equivalent to 20 artificial labor; excellent snow throwing distance; snow throwing direction can be set independently; electric start snow sweeping is equipped with lighting, which can be operated at night or in the morning.

With the strong rolling brush system, no matter what kind of snow it is, the Walk Behind Snow Sweeper can adapt to different road conditions without using salt or snowmelt agent. You can walk behind it and push it to control the direction. With the four stroke engines, our Walk Behind Snow Sweeper can work for a long time in outside.
